

CLIMATE CAMP PROGRAMME

All parts of the programme will have an option of simultaneous translation to English. Workshops by the international participants will be held in English with an option of simultaneous translation to Czech.

MONDAY 3. 10.

14.00-17.30 AFTERNOON (WITH A BREAK)

ENERGY POVERTY - HOW TO ORGANISE AGAINST IT AND HOW TO INSULATE YOUR HOME DIY (MARIKA AND JOSEF, RE-SET)

This workshop is an introduction to the campaign against energy poverty and for clean and affordable energy for all. You will learn about what energy poverty is, what its systemic causes are, and what measures can help us address it. As part of the campaign, we also want to insulate homes DIY to reduce heat consumption. At the workshop we will try out with you how to organise self-help groups and how to talk to your neighbours about energy poverty. On Tuesday and Wednesday, this workshop will be followed by two days of helping the local community to insulate their homes.

TUESDAY 4. 10.

ALL-DAY PROGRAMME: DIY HOUSE INSULATION WITH LOCAL COMMUNITY

9.30-10.30 PLENARY FOR ALL

10.30-12.00 MORNING PROGRAMME

WHAT'S GOING ON HERE OR WHY IS KLIMAKEMP NEAR OSTRAVA? (MICHAL, VERONIKA, LIMITY JSME MY! AND ANYONE ELSE)

What are the biggest problems of Ostrava and other cities in the Moravian-Silesian Region? How is this industrial area different from the

brown coal mining areas in Northern Bohemia? How is the housing crisis related to coal and why are so many people moving out of Ostrava? What kind of Ostrava would we like to live in? An informal introductory debate for all local, cross-country and cross-border people.

14.00-15.30 AFTERNOON PROGRAMME I

PATRIARCHY AND THE DESTRUCTION OF OUR PLANET (DIALOGUE WORKSHOP) - PART 1 (MARTIN AND MAJA, SDRUŽENY)

In this workshop we will reflect on the relationship between patriarchy and the exploitation of nature. The destruction of the ecosystem and the brutality towards life is an integral part of the ideology of patriarchy and we will look together into the bowels of this oppression and try to explore together the possibilities to revolt against it.

THE DAY BEFORE AND AFTER 24.02.2022: CLIMATE MOVEMENT IN UKRAINE BEFORE AND DURING THE WAR (DARIA LAZARIEVA, ECOACTION, UKRAINE)

The climate movement in Ukraine used to be peaceful, bright, and powerful. I would like to start by sharing some photos and stories from our activities to describe the movement BEFORE. The second part of the presentation will be about the war's harm to the Ukrainians and the world's environment. I will tell participants about the transformation of climate campaigning due to the war starting with plans for the year, the shock that has stopped our work, and the redirection of priorities with new targets.

PSYCHOLOGICAL FIRST AID WORKSHOP - PART 1

Do you like to help people around you to solve their problems? Then this workshop is for you. In two 90-minute sessions, we will teach you the basics of crisis intervention and working with emotions so that you can effectively help your friends in psychological distress. The workshop also includes a unique opportunity to

expand your newly acquired skills with practice in the awareness tent, where you can take shifts throughout Klimakemp.

16.00-17.30 AFTERNOON PROGRAMME II

PATRIARCHY AND THE DESTRUCTION OF OUR PLANET (DIALOGUE WORKSHOP) - PART 2

RADICAL IMAGINATION - WHAT DOES IT MEAN TO IMAGINE A RADICALLY DIFFERENT FUTURE? (ANNA KÁRNÍKOVÁ AND ADAM ČAJKA)

If we want to maintain stable societies in a stable environment, we are facing a transformation comparable to the transition from feudalism to capitalism. We are now in a kind of in-between space - the old order is gradually disintegrating, but the new one does not yet exist in more than vague outlines (the so-called liminal state). How can we create a new future from a space of uncertainty and indeterminacy? Why is it not enough to simply imagine a new ordering of society? And how can we insert radical imagination as a skill into our everyday lives?

The workshop will present Adam and Anna's reflections so far on what radical imagination can be and how to work with it, but it is primarily a space for co-creation. We will work with many diverse sources such as lateral thinking (Edward De Bono), U theory (Otto Scharmer), flânerie, and Zen Buddhism. Bring all your inspiration, no matter how eclectic.

PSYCHOLOGICAL FIRST AID WORKSHOP - PART 2

ACTIVISM IN UNIVERSITY ENVIRONMENT (UNIVERSITIES FOR CLIMATE)

On behalf of Universities for Climate, we invite you to a non-hierarchical debate on activism in university environment. While we have some wonderful speakers who will share their experiences, we also want to give space to the audience to talk about examples of good (and bad) practice and exchange contacts so that we can come back to our universities stronger!

18.30-20.00 PANEL DEBATE

MEGAPROJECTS OR A BETTER LIFE FOR PEOPLE? HOW COULD JUST TRANSITION LOOK LIKE IN OUR REGION?

During the 90's, the Ostrava and Karviná region experienced a careless decline in industry and the privatisation. To prevent the worst case scenarios regarding the climate crisis, we must switch to renewable energy and drastically transform our economic

system. We can't afford for the common people to pay the price for that. We can't afford wasting public funding. What help could the Just Transition Fund and 20 billion Czech crowns offer? What jobs could people from endangered industries find? Will the end of the fossil industry bring positive change for the local people?

The participants of the panel discussion: Zuzana Klusová (SOS Karviná), Zuzana Vondrová (Centrum pro dopravu a energetiku), Jiří Krist (Místní akční skupiny Opavsko). Moderated by Mikuláš Černík.

20.15-22.00 EVENING PROGRAMME

SCREENING AND DEBATE ABOUT THE FILM PRAISE FOR DISOBEDIENCE (RADEK KUBALA, RE-SET)

The roots of the climate justice movement in film – Disobedience.

How important is civil disobedience for the development of the world? What is the difference between legality and legitimacy? Why is it important to be able to resist unjust laws?

These and other questions will be answered in the second film night of a series on the history of the climate justice movement. We will screen the film Disobedience, which describes the rise of the civil disobedience movement against fossil fuels.

CIRCLE AND NON-CIRCLE DANCES FOR EVERYONE (ANNA KÁRNÍKOVÁ AND ANYONE ELSE)

If we want to survive the 21st century, we must dance, says American philosopher and dancer Kimerer L. LaMothe. Dance creates and strengthens community, evokes pure joy and gives strength for the struggles ahead. You don't need any skill to dance, just your body. Everyone is welcome to join in, it will be fun!

WEDNESDAY 5.10.

ALL-DAY PROGRAMME: DIY HOUSE INSULATION WITH LOCAL COMMUNITY

9.30-10.30 PLENARY FOR ALL

10.30-12.00 MORNING PROGRAMME

JUST TRANSITION OF SCHOOL CANTEENS (ČZBĚTKA AND ANIČKA, NESEHNUTÍ)

Do you go to the school canteen? Does your child go there or are you just interested in the topic of school meals? Are you a vegan or vegetarian, or do you have a gluten allergy and therefore don't eat in the canteen? Do you have to cook your child's school lunches because the canteen cannot take into account the specifics of their diet? Would you like to change that? In our workshop, we'll talk about the current school food system and its unsustainability (not just because of the climate) and how we can work together to change it for the better. Work with us to create healthy, plant-based, climate-friendly lunches for all! At the Nesehnutí Colourful Canteens campaign, we are working to change school meals - we want all and everyone to eat in the school canteen. But we need the help of all of you who eat in school canteens every day - or don't eat there. Find out how you can get involved in the campaign at the workshop. Find out more about the campaign here: <https://pestrejidelny.cz/>

TO GROW OR TO LIVE? (TADEÁŠ ŽDÁRSKÝ)

We are living in a time of crises - unaffordable housing, energy poverty, growing inequalities, increased problems of depression or burnout, the climate crisis. Although they may seem separate, their common denominator is an economic system that prioritises growth and profit at the expense of meeting the needs of the majority of people and nature. While international institutions such as the European Union and the United Nations promote so-called green growth, the degrowth movement sees economic growth at the heart of the problem. Can green growth really be achieved? Is it even desirable? What systemic pressures for growth are built into our economic system and how can they be overcome? What would a degrowth economy look like that meets the needs of everyone within the planet's limits?

WHAT ABOUT SOLAR PANELS?

(RADEK)

How do solar panels work and how much electricity can they produce? Can a person plug them in a Do-It-Yourself (DIY) mode? And where can I get them if I don't have half a million crowns? Everything you need to know and with a practical demonstration.

14.00-15.30 AFTERNOON PROGRAMME I

SUSTAINABLE URBAN AGRICULTURE

(RADEK AND ANIČKA, CSA "Z(A)KUSME TO")

Community supported urban agriculture: what is food sovereignty and can it be achieved in the Czech context and in the city itself? What are the pitfalls of urban farming? Does farming even belong in the city? What are the economic and ecological aspects of food production? Does it all make sense? And what will we eat?

WORKING FOR A BETTER WORLD

(ONDŘEJ KOLÍNSKÝ)

Many of us have jobs that don't make sense to us; jobs that produce useless things, destroy the environment or do more harm than good to other people. But the less fortunate don't even have any jobs. Using the example of a specific community, we will try to solve this double problem - acting as local residents, we will think of ways to invest the resources intended for transformation to create meaningful and secure jobs for locals.

PHILOSOPHICAL READING AND DEBATE (UNIVERSITIES FOR CLIMATE)

Anežka and Tereza, students of philosophy and history and members of Universities for Climate, invite you to an intellectual snack. Together we will read a shorter text from the genre of environmental philosophy, discuss it and at the end we can exchange tips for further readings.

ACTION TRAINING - PART 1

Want to get involved in direct action at Klimakemp? Or are you planning to join another civil disobedience action to fight for social or climate justice? Then take part in one of the action trainings. The sooner the better, because there will be more of us every day. In the past, non-violent direct actions have helped win women the right to vote, end racial segregation or topple autocratic regimes. For example, in the training you will learn how to behave in contact with the police in a way that does not endanger yourself or others, or how

to organise and look after each other in tense situations.

If you want to get involved, read the ACTION CONSENSUS.

16.00-17.30 AFTERNOON PROGRAMME II

GREEN RECOVERY OF UKRAINE: WHAT ABOUT CLIMATE CHANGE AND ENERGY SECURITY?

(SOFIA, ECOACTION, UKRAINE)

Despite the brutality and devastation of the war that Russia started in Ukraine, our society has already started planning the reconstruction of Ukraine. Along with existential challenges that must be addressed in face of the Russian aggression, Ukraine has the unique potential to become a global showcase for climate change adaptation and a rapid shift away from fossil fuels. At the seminar, we will explore and discuss, what is the conception of the Green recovery of Ukraine, is there a place for Climate Change adaptation in these plans, and how we can build a safe, green, and prosperous future for us all. Lecture by Sofia Sadogurska, Climate Adaptation Expert, NGO Ecoaction, Ukraine.

WHY CAPITALISM IS DESTROYING NATURE AND HOW TO STOP IT (JAN MÁJÍČEK)

Although Karl Marx couldn't have known about the climate crisis, his late work shows the emergence of the so-called metabolic rifts that are a direct consequence of capitalism as an economic and social system. What can this analysis tell us today to not only save the world, but to make it the world we want?

REUNION OF HISTORICAL, CURRENT AND FUTURE UNIVERSITY ECO-GROUPS

(UNIVERSITIES FOR CLIMATE)

Whether in Ostrava, Olomouc or Prague, as part of a larger movement or just 'greening' your department, have you been involved in climate activism at any university? If so, on behalf of the (Prague) Universities for Climate, we invite you to lunch together. Let's get to know each other, network and complain about the rigid university structures. We look forward to it!

ACTION TRAINING - PART 2

17.30-18.30 BARBECUE

18.30-20.00 PANEL DISCUSSION

HOW DO WE GET OUT OF THE HOUSING CRISIS?

Rising costs of housing, rent prices without any limit, contract only for one year, having your own home becoming increasingly unachievable... The housing crisis has become a major topic in the last years both in the Czech Republic and the rest of the world. However, in the Ostrava and Karviná region it has been present since the 90's. Houses, restored and repaired with money from the communities, were bought by a coal baron Zdeněk Bakala and now they fell into the hands of an international corporation Heimstaden, one of the largest of its kind. Cities and municipalities mostly privatised their housing and the rest is often not being taken care of. What is the stance of local people on this issue?

The debate will introduce an example of founding a social union, so the inhabitants have more control over how much of their rent is in return invested into maintaining their housing in a good shape. We will discuss different ways of working together with fellow tenants against international corporations.

Is the housing crisis similar in different parts of the republic? Who's to blame and what can we do? How should cities and municipalities respond to make housing accessible for all?

Can we achieve this, for example, in Opava?

The participants of the panel discussion: Eva Lehotská (Bedřiška Community), Jan Malý Blažek (Masaryk University), Jakub Nakládal (organisations Re-set and Paměť města).

Moderated by Veronika Dombrovská.

20.15-22.00 EVENING PROGRAMME

ŠTĚSTÍČKO (DIVADLO FESTE)

Anxiety. Envy. Songs. Home.

Housing, its lack, its disproportionate costs and its dramatic subordination to only market mechanisms is becoming one of the most difficult problems of today. One million people face insecure or inadequate housing. And all indications are that this trend will continue.

That's why we decided to devote our current theater project to housing.

FIRE SHOW

THURSDAY 6.10.

8.45-12.00 WALK THROUGH THE LANDSCAPE OF OSTRAVA (JAN LENART, UNIVERSITY OF OSTRAVA)

The typical landscape of Ostrava, which is already disappearing, can still be seen in Vítkovice. A trip with local environmental geographer Jan Lenart, during which we will see the workers' colonies, mines, architecture, monuments, industrial landscape and talk about how they are related and what their current significance and potential is.

9.30-10.30 PLENARY FOR ALL

10.30-12.00 MORNING PROGRAMME

HOW CAN WE ACHIEVE SOCIO-ECOLOGICAL TRANSFORMATION THROUGH DEGROWTH? (ARNOŠT NOVÁK)

Over the last few years, degrowth has grown from a small activist and academic movement into a resonant vision that even hegemonic discourse has had to take into account. But we still do not live in a degrowth society. How to create a degrowth utopia here and now? And does it not actually exist around us anymore? How to connect the cracks of capitalism and achieve a socially just and ecologically sustainable transformation? Where to go and what can we do concretely?

CLOWN-ACTIVIST WORKSHOP (FLORENT GOLFIER, TYHLE)

This workshop moves between activism, intervention and (clown) performance. It offers a diverse set of performative and activist exercises with which participants can find their own path to clowning. The motto is "Your clown is as individual as you are", so there are no limitations except your own imagination. The workshop is open to everyone, no previous experience is necessary. The workshop will be held in Czech or English depending on the needs of the participants.

PHOTOVOLTAICS FOR RESIDENTIAL HOUSES - HOW TO ARRANGE CHEAPER ELECTRICITY AT HOME? (MICHAL BERG)

Practical experience from the jungle of obstacles that apartment buildings have to overcome in order to put a photovoltaic power plant on the roof. Something about persuading owners at meetings, legal pitfalls, current legislation and technical conditions that need to be resolved.

12.00-13.00 MEDITATION OF LOVE FOR THE LANDSCAPE (LIVING LAUDATO SI')

We will meet at the campsite by the large tent (Šapitó) and walk to a quiet place near the campsite. There we will create a quiet space of trust together.

For each other and for this landscape, we will create a time in which we remain in wonder, in the presence of all who inhabit this landscape. We will witness this small part of our ecological context and take a loving attitude towards it, trusting that this attitude will spread to the whole world and all its inhabitants.

12.30-13.30 RECRUITMENT MEETING OF "WE ARE THE LIMITS!"

Are you interested in joining the initiative We are the limits? Would you like to join but don't know what you would like to do? Want to know more about our movement? Come to the recruitment meeting!

We will introduce you to our movement - what we do, our goals and values and how you can get involved.

At the meeting, it will also be possible to join our buddy program - we will assign you a more advanced buddy in "Limity", which will gradually introduce you to our activities.

14.00-15.30 AFTERNOON PROGRAMME I

MEETING OF TENANTS AND TENANTS OF INN (LÍDA AND YULIYA, RE-SET)

We are founding the Tenants' Initiative in Prague! However, the lack of legal protection and problems arising from high rents are experienced by people all over the country. What are our goals and how do we want to achieve them? What was our main motivation for setting up the initiative? The programme will answer these questions and tenants will share their experiences.

ACTION TRAINING - PART 1

Want to get involved in direct action at Klimakemp? Or are you planning to join another civil disobedience action to fight for social or climate justice? Then take part in one of the action trainings. The sooner the better, because there will be more of us every day. In the past, non-violent direct actions have helped win women the right to vote, end racial segregation or topple autocratic regimes. For example, in the training you will learn how to behave in contact with the police in a way that does not endanger yourself or others, or how

to organise and look after each other in tense situations. If you want to get involved, read the ACTION CONSENSUS.

16.00-17.30 AFTERNOON PROGRAMME II

FUN QUIZ ABOUT EPH OR HOW TO DESTROY DANIEL KŘETÍNSKÝ AND HAVE FUN DOING IT (ANIČKA, KRISTINA & VAL, „WE ARE THE LIMITS!“)

A coal miner, a developer, a football club owner and a media tycoon walk into a pub and the bartender says: "As always, Mr. Křetínský?" Daniel Křetínský, the fourth richest Czech and owner of the biggest Czech company EPH, made his fortune trading in Russian gas and running the dirtiest coal-fired power plants. Now, while we're dealing with utility bills, he's buying villas and yachts. The workshop will introduce the new campaign by „We are the Limits“ against EPH and create a space to dream together about a world without billionaires.

MUTUAL CORE: A CASE STUDY OF TRANSFORMATION (JAROSLAV MICHL)

From fossil energy to green energy, from capitalism to green capitalism: what shape will our future take if it is based on principles that reflect, if not directly reproduce, the same modes of existence and relations that we are struggling with and that should rather be revised? Mutual Core is an attempt to visualize the limits of our ideas of the future and the limits of the current system in terms of ideas of the future that would not include growth (embodied in the paradigm of green capitalism). Our project frames how nostalgia for the socialist past and current trends towards a greener and more sustainable future resonate with existing profit-oriented socio-economic models. It aims to offer a visual metaphor for our belief that the past must be taken into account when planning for the future. At the same time, it seeks to illuminate how patterns from the past can easily frustrate our present actions and distort our imaginations about the future. Authors of the project: Giulia Faccin, Ján Skaličan, Jitka Králová, Jaroslav Michl

LEGAL WORKSHOP

Not sure if you want to participate in direct action at Klimakemp? Or are you planning to join another civil disobedience action to fight for social or climate justice? Then attend one of the Legal Workshops. Beforehand, please read the ACTION CONSENSUS.

ACTION TRAINING - PART 2

TOUR DE STINK 2022 – BICYCLE RIDE IN OSTRAVA!!! (DÝCHÁM V OSTRAVĚ)

Take your bikes, tricycles, scooters or other vehicles and take the stink out of Ostrava with us. Meeting in front of „Krajský úřad“ ending at OKK Coke Plant.

18.30-20.00 PANEL DISCUSSION

WEARING A SWEATER IS NOT ENOUGH: HOW TO ENSURE AFFORDABLE ENERGY FOR ALL

Do you live in an energy crisis? The answer might surprise you... Do you pay inadequately high prices for electrical energy? Are you worried things might get even worse? Do you want some assurance that things will get better? Is it enough that the state put a limit on the price of electrical energy? What are the next steps that should lead to a more affordable and clean electrical energy? What are the things you could be doing inside your own household and what are the things that the state should be doing? What things work in other countries? What to do to make sure that electrical energy becomes affordable and at the same time isn't produced with resources like coal and gas that cause the climate crisis? The participants of the panel discussion: Anna Michalčáková (Community Energy Union), Dominik David (Department of Energy Security, Masaryk University), Dušana Dokúpilová (Slovak Academy of Sciences), Josef Patočka (Re-set: platform for social-ecological transformation). Moderated by Marika Volfová.

20.15-22.00 EVENING PROGRAMME

LUXEMBURGOVÉ**

ACTION DAYS FOR CLIMATE JUSTICE

FRIDAY 7.10.

9.30-10.00 QUICK INFO-MEETING

10.00 LEAVING FOR OSTRAVA FOR THE DEMONSTRATION FOR DECENT HOUSING AND AFFORDABLE ENERGY!

Having a place to live and something to heat your place with is a basic right, not a luxury. While we're worrying about how to pay the next bill, the profits of big companies are rising.

Join our protest walk through Ostrava, together we can take back our city. We want to have fun, educate and play in the streets of the city that belongs to us, even if it is owned by developers. To create a space where everyone is heard, not just those who have profited from speculation.

11.00 START OF THE DEMONSTRATION IN FRONT OF PLATO IN OSTRAVA AND MARCHING THROUGH CENTRE TO THE HEIMSTADEN AND ASENTAL HEADQUARTERS (ČS. LETCŮ PARK)

Heimstaden owns around 43,000 apartments in the Czech Republic. A large part of them were acquired through the former coal miner Zdeněk Bakala, who stole thousands of mining flats in privatization. Now Bakala, through his property development company Asentel, is also planning to make money from the transformation of the region. The land that the region is now buying up for outrageous prices (for example, so that a giant greenhouse with exotic plants heated by mining gas can stand on it) is Bakala's.

Big energy companies and fossil fuel corporations are also profiting from the energy

crisis. While we worry about what will pay our next energy bill, their profits are rising. Together, let's show Asentel and Heimstaden what we think of their dirty business. Let's imagine a city without developers, coal miners and speculators.

**13.00 PICNIC AT DEMO, SPEECHES, WORKSHOP WITH
SHARED HOUSES, CONCERT OF SAMČO AND MORE**

CCA 15.00

Leaving the demo back to the camp (if you want to go to the Action Training, you have to leave earlier)

14.30 AFTERNOON PROGRAMME I

ACTION TRAINING - PART 1

Want to get involved in direct action at Klimakemp? Or are you planning to join another civil disobedience action to fight for social or climate justice? Then take part in one of the action trainings. The sooner the better, because there will be more of us every day. In the past, non-violent direct actions have helped win women the right to vote, end racial segregation or topple autocratic regimes. For example, in the training you will learn how to behave in contact with the police in a way that does not endanger yourself or others, or how to organise and look after each other in tense situations.

If you want to get involved, read the ACTION CONSENSUS.

16.00-17.30 AFTERNOON PROGRAMME II

ACTION TRAINING - PART 2

AFFINITY GROUP SPEED-DATING

Do you want to get involved in direct action at Klimakemp, but don't know anyone to go with you? Then this is the space for you! Find the right affinity group that you feel comfortable with and support each other. This meeting spot

has the potential to start lifelong friendships. If you want to get involved, read the ACTION CONSENSUS.

LEGAL WORKSHOP

Not sure if you want to participate in direct action at Klimakemp? Or are you planning to join another civil disobedience action to fight for social or climate justice? Then attend one of the Legal Workshops. Beforehand, please read the ACTION CONSENSUS here.

WORKSHOP: SHARED GRIEF (ŽOFIE AND MARTINA)

Our names are Martina and Žofie and we met through climate activism. We share, among other things, love for our planet and are therefore concerned about what is happening to it. We each carry these feelings separately, but we feel a great strength in sharing them. That is why we want to create an environment where we are able to do that and where we feel safe. Join us on a journey of feeling our grief, frustration, fear, anger and any other emotions associated with the climate crisis and ecological disruption. Together we will create a safe space where we can share these feelings and build harmony with humanity and the animal and plant world, a community to turn to, emotional resilience and love for ourselves.

WHY NUCLEAR ENERGY CANNOT SAVE THE CLIMATE? (MILAN SMRŽ, EUROSOLAR)

There are not many fans of nuclear energy within the climate movement. However, let's discuss the real options, the capacity and problems around building new reactors. Do we have enough time, uranium and water for cooling? What are the collateral damages of nuclear energy? A lecture with a discussion.

18.30-20.00 SECRET CELEBRATION WITH CAKE (NOT ONLY) FOR PEOPLE WHO HAVE BIRTHDAYS

20.15-22.00 EVENING PROGRAMME

FOLK NIGHT

I s tebou
Severní nástupiště

SATURDAY 8.10.

MORNING (OUTSIDE OF THE CAMP)

DEMONSTRATION

DOING CLIMATE JUSTICE WITH OUR OWN HANDS AND LEGS, BECAUSE IT WON'T HAPPEN OTHERWISE: AN AMAZING TRANSFORMATIVE EXPERIENCE OF A FIGHT FOR CLIMATE JUSTICE

To get involved, read the ACTION CONSENSUS.

MEANWHILE AT THE CAMP

Opportunity to get involved in supporting the Amazing Transformative Experience of a Fight for Climate Justice from the outside (In various tents on site)

AFTERNOON

ENERGY INDUSTRY "BEYOND BELIEF: FACT OR FICTION" (OLEG OLEGOVIČ)

Is coal really mined in Poland? Is EPH a separate state? Can nettles mitigate the carbon footprint of oil? Prepare your intuition and join a programme full of mysterious stories and shocking truths. The program will also include a short film!

THE FUTURE IS FEMINIST: WHERE TO GO WITH (ECO)FEMINISM IN THE CLIMATE MOVEMENT (VERONIQUE ANANKÉ NEBESKÁ)

Are you interested in feminism and ecology? And have you heard of ecofeminism? Let's share together how to strategically (un)connect feminism and ecology and put our heads together so that we not only don't all die here, but that we survive in a feminist and inclusive way. The workshop will be partly based on the publication The Future is Feminist: Gender and Intersectionality in the Czech Climate Movement, which I wrote with Miša Pixová earlier this year.

EVENING PROGRAMME

HANGING-OUT, FRIENDSHIP AND DJS

SUNDAY 9.10.

COLLECTIVE CLEANING OF THE CAMPSITE
